Kevin,

Attached are ORC revisions received today to your Indiana petition summary, for, as you indicated, your use only at the Kaplan briefing.

I only made some minor edits to this file attached, deferring to you to determine how much of it you will need.

Janet

**Subject:** Input Due April 25

We will be meeting with Bob K next Thursday to discuss petitions in general. This will include petitions received by GWDW, WW, and UIC as well. We were asked to provide Bob with a very brief status of each petition. Attached is an example of talking points for our Indiana petition. I will need similar documents concerning the Ohio CAFO petition (Socha); Illinois CAFO petition (Socha); and Wisconsin petition (Colletti). I don't intend to share these documents just plan to use them to aid me in the discussion.

We will wrap up the discussion on petitions with the Minn mining petition. On this we are expected to provide a little more detail and tee up the various intertwined issues (wetlands, 401(a)(2), wild rice, mercury, tribal treaty rights, polymet, and other N Minn mining) for a future discussion with Bob. I attached a briefing document prepared last October that can be updated (McKim). Please include reference to our recent letters and completion of the draft SRF report.

Please work with your attorney's to have these completed by Monday. thanks
